PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA: 9.37/10) skilled in Java, Spring Boot, Spring Security, React.js, and MySQL. Built full-stack applications with REST APIs, JWT authentication, and solved 150+ DSA problems.

EDUCATION

B.E. Computer Science & Engineering | Lords Institute of Engineering and Technology | 2023–2027 | CGPA: 9.37/10

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3, Bootstrap, Axios, React Router DOM, Context API

Backend: Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs

Database: MySQL, JDBC, JPA ORM

Tools: Git, GitHub, Postman, Maven, IntelliJ IDEA, VS Code

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Job Portal Application | Spring Boot, Spring Security, JWT, React.js, MySQL

- Built a full-stack job portal for recruiters and job seekers.
- Implemented JWT-based authentication and role-based authorization using Spring Security.
- Developed REST APIs for job posting, applications, dashboards, and notifications.
- Integrated resume upload and email notifications using MultipartFile and JavaMailSender.
- Built a React frontend with Protected Routes, Axios interceptors, pagination, and search.

E-Commerce Product Management System | Spring Boot, React.js, MySQL, JPA, Lombok

- Built a full-stack e-commerce application with product management, search, cart, and checkout features.
- Developed RESTful APIs using Spring Boot and MySQL.

- Stored product images using @Lob and served them through dedicated API endpoints.
- Integrated React frontend with Axios, Context API, and CORS-enabled communication.

User Management System | Spring Boot, Spring Security, React.js, MySQL

- Implemented user registration, login, update, retrieval, and deletion functionalities.
- Applied DTO architecture and server-side validation using Bean Validation annotations.
- Secured passwords using BCryptPasswordEncoder and protected APIs using Spring Security.
- Built a React frontend with React Router, Axios, and reusable UI components.
